PROFILE

- More than 20 years as a print and online journalist covering environmental and energy issues.
- Reported and written hundreds of stories on community response and resilience to changing environmental conditions for POLITICO's E&E News, a national news outlet dedicated to environmental and energy policy and politics. Stories have also been published by ScientificAmerican.com and other print and online media.
- Based in Minnesota, have traveled nationally and internationally to report and write about community-led resilience to environmental change.
- Broad knowledge of environmental and energy policy issues, including air and water pollution, waste management, wildlife and species management, renewable energy, nuclear and fossil fuel power generation, agriculture, mining, urbanization and climate change.
- Able to distill complex science and policy issues into understandable language and concepts.

WORK HISTORY

2021-2026: POLITICO's E&E News, Arlington, Virginia

Reported news and feature stories about community resilience to environmental change. Also covered NOAA, oceans and fisheries, weather, and climate science.

2003-2021: E&E News, Washington, D.C.

Reported, wrote and edited news and feature stories on environmental and energy topics at the state, national and international levels. I have worked in Washington D.C. and regional bureaus in Minneapolis and Atlanta.

2001-2003: Editor, University Magazines, University of Maryland, College Park.

Directed editorial departments for two University of Maryland magazines, College Park (circ. 58,000) and Maryland Research (circ. 17,000). Magazines covered the breadth and scope of the University of Maryland's teaching and research efforts.

2000: Newsperson, Associated Press, Baltimore, Md.

Reported, wrote and edited stories for print and broadcast newswires serving Maryland and Delaware. Coverage included spot news, local and state government agencies, education, environment, police, courts and transportation.

1998-2000: Environment Beat Reporter, Mobile (Ala.) Register.

Reported and wrote stories on environmental issues in south Alabama and the broader Gulf Coast region.

EDUCATION

University of Alabama, M.A., journalism, 1998.

University of Minnesota, B.A., geography with journalism minor, 1994.
